About Speakers

BIO - Adnan Mohd Shukor

Adnan Mohd Shukor or (@xanda) is a Threat Analyst at BlueCoat System. He detects, analyzes, and blocks web threats and one of his areas of expertise is in exploit kit detection. He also contributed codes and patches to several open source projects and communities before, and most of them are in IT security related projects. Prior to joining BlueCoat System, he was the Senior Analyst at Malaysia CERT, CyberSecurity Malaysia

BIO - Sina Manavi

Sina Manvi is a security enthusiast interested in penetration testing and digital forensics investigation. He has a master's degree in computer science in the field of digital forensic investigation, and also certificate holder of CEH and CHFL. He has conducted many security talks and practical workshops and training on web/network/mobile penetration testing in Malaysia. His main interest is in mobile app penetration testing. He started his IT career as a software and database developer, and later joined the software database designing field. Currently, he works as professional trainer and information security consultant for Kaapagam Technologies Sdn Bhd in Malaysia.

BIO - Adli Wahid

Adli Wahid (@adliwahid) is a Security Specialist at the Asia Pacific Network Information Centre (APNIC) in Brisbane, Australia. He does a lot of engagement with network operators, CERTs/CSIRTs, Law Enforcement and Inter-Government Agencies. He is also a member on the Board of Directors of the Forum of Incident Response and Security Teams (FIRST). Prior to joining APNIC he was the Head of Malaysia CERT at CyberSecurity Malaysia and a member of MUFG-CERT (Bank of Tokyo-Mitsubishi UFJ) You can read some of his activities at APNIC's blog <https://blog.apnic.net/>
